About Me

A highly motivated and organized individual seeking an entry-level role in the software industry. Eager to apply the knowledge and skills acquired during a Bachelor's degree in a dynamic and growth-oriented environment. Possesses strong teamwork, and communication abilities, with a passion for continuous learning and innovation.

Education

Graduation: BTech Computer Science Engineering , Sastra Deemed To Be University, Thanjavur , Oct 2021 - June 2025 , CGPA : 8.61

Intermediate: Sai Krupa Junior College, Dharmavaram , June 2019 - May 2021 , CGPA : 9.91

Schooling: Ushodaya High School, Dharmavaram , Completed in 2019 , CGPA : 10.0

Projects

Online Shopping Website (Django)

- Developed a fully functional e-commerce web application using Django framework. Implemented features like product browsing, shopping cart, and user authentication. Enhanced database handling with Django ORM for efficient data storage and retrieval.

Autism Detection using Machine Learning

- Built a predictive model to classify whether a person has Autism disorder. Applied data preprocessing, feature selection, and supervised learning techniques. Achieved accurate predictions by experimenting with different ML algorithms.

Technical Skills

- C/C++
- Python
- HTML,CSS
- Datastructures
- SQL
- Machine Learning

Soft Skills

- Teamwork
- Communication Skills
- Adaptability
